## Comet staff report

The Purdue College of Technology at Kokomo is encouraging teachers and guidance counselors to nominate students to attend the Day in College event Nov. 3 that will give students a sneak peek at what college has to offer.

Day in College is scheduled for 8:30 a.m. to 4 p.m. at the Purdue College of Technology at Kokomo campus at Indiana University-Kokomo's Kelley Student Center, Room 130.

Christy Bozic, director of the Kokomo location, said the event is geared toward high school juniors and seniors in the following counties: Howard, Miami, Wabash, Grant, Tipton, Clinton, Carroll and Cass. She said teachers and counselors can nominate as many college-prepared students as they wish. The deadline for nominations is Friday.

Bozic said the program would be most beneficial to students who have not yet made a commitment to a college, have an interest in College of Technology programs, are working toward complet-

ing college-preparatory math courses, and those who prefer a smaller campus or a campus close to the Kokomo area.

At the Nov. 3 event, each participant will experience a typical day in college by attending short college classes, and they and their parents will have an opportunity to meet with professors and members of student services staff who can provide information about admissions and financial aid.

Purdue College of Technology at Kokomo offers programs in computer graphics technology, computer and information technology, electrical and computer engineering technology, mechanical engineering technology, and organizational leadership and supervision.

To nominate a student or for more information, contact Bozic at (765) 455-9339 or cbozic@purdue.edu

### Flora-Monroe Twp.

The Flora Public Library is a member of the Shared Catalog of Indiana Online (SCION.) SCION is the latest version of a shared catalog for smaller Indiana libraries that has become a valuable resource sharing tool for many libraries of all sizes and types throughout the state.

SCION library members have migrated to a new open source web-based library automation system, Koha ZOOM. We ask for patrons' patience during the migration process.

There are a few changes with Koha. Fines have increased to: books, 10¢ a day, and books on tape or compact disc are \$1.00 a day. Patrons are now allowed to check out three video items at a time and will have a three-day check-out period for them.

As we embark on new technology changes we also invite you to step back in time. The Flora Library is 90 years old this year. It was built in 1918 with a grant from the Andrew Carnegie Foundation. The display cases on the main level are filled with library and community memories. Take a few moments to reflect on just a few of the library's archival collection, and look at just how far we have come in the past 90 years.

The theme for the next storytime will be Leaves. Autumn is here, the leaves are falling, the wind is blowing, and we have lots of fun stories to celebrate the season. Preschool storytime is Tuesday morning at 10 a.m.

Currently playing on Dial-a-Story is "Injun Summer." On Friday the story changes to "Goops and Others." Call Dial-a-Story at 967-3814.

LEIGH REPLOGLE of Delphi, a first-year student at Manchester College, North Manchester, has a role in Shakespeare's play, Twelfth Night, to be performed during Homecoming weekend Oct. 9-12. She is the daughter of Randy and Theresa Replogle.

## Rossville Elementary earns Four Star status

Rossville Elementary School is one of 179 public schools in Indiana honored with 2007 Four Star School Awards. The award is the highest state distinction and is based on student achievement on ISTEP+ assessments and overall attendance rates.

"We are pleased to recognize 179 Indiana schools for their exceptionally high performance," said Superintendent of Public Instruction Dr. Suellen Reed.

A total of 1,819 Indiana public schools were eligible for the Four Star School Award. To earn the distinc-

tion, a school must be accredited by the Indiana State Board of Education, meet Adequate Yearly Progress (AYP) as defined by The No Child Left Behind Act of 2001 (NCLB) and perform

in the top 25 percent of all the schools in the state in each of the following four areas: student attendance rates, mathematics proficiency scores, English/language arts proficiency

scores and the percent of students passing both English/language arts and mathematics. The annual award is non-monetary and schools earning this honor receive an award certificate.

"One caveat. After practicing for over 45 years, and 1000's of hours of advanced education with the masters of dentistry, we've chosen to practice things we enjoy doing and are good at. We love promoting healthy mouths through general dentistry as well as building beautiful smiles and restoring complex cases. If you have a smile that is not all you want it to be, or have broken, chipped, unsightly or missing teeth and would like to better understand the choices available - we would love to help!"
